
WHAT ALIGN STANDS FOR

Align is at the heart of everything we do. We believe recovery works best when people feel accepted and supported with honesty and care, creating a space where real growth and healing can happen.

LEVELS OF CARE

We provide a full continuum of care to meet people wherever they are in their recovery journey. This includes medical detox, residential treatment, and dual diagnosis support.

OUR SERVICES

We offer evidence-based treatment tailored to each person, including therapy, trauma care, and holistic practices like yoga and mindfulness - all in a peaceful, private setting.

WHY CHOOSE US

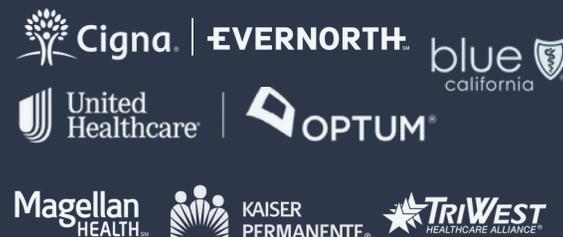

We meet people where they are - with real support and zero judgment. Our team combines evidence-based care with a personal touch, focusing on both addiction and mental health. We keep things small and intentional so each person gets the time, attention, and connection they need to truly heal.

From detox, to residential, to after care, we're with you every step of the way.

INSURANCE

We're in-network with many major insurance providers and also accept all insurance plans with out-of-network benefits. Self-pay is available by cash, check, or credit card.
